# MUSKAN GUPTA

Technical Artist

destined.smile@gmail.com | Bengaluru, India | destined-smile | the_destiny_smile

## Summary

Technical Artist with 6+ years of experience across game development, Technical Art, real-time VFX, and 3D production. Progressed from Associate Technical Artist to Technical Artist 2 at Zynga, contributing to established mobile game franchises and new-IP development. Experienced in building artist-facing tools with Python, C#, and JavaScript; developing real-time shaders, VFX, and materials; and optimizing assets and rendering pipelines for mobile performance. Skilled in GPU/CPU profiling, asset validation, workflow automation, and AI-assisted prototyping and problem-solving.

## Professional Experience

**TECHNICAL ARTIST,** *ZYNGA*
10/2022 – Present
Bengaluru, India

**Career Progression:** Technical Artist 2 (Apr 2026 – Present) | Technical Artist 1 (Apr 2024 – Mar 2026) | Associate Technical Artist (Oct 2022 – Mar 2024)

- Contributed to **Zynga's FarmVille portfolio**, including FarmVille 2: Country Escape, FarmVille 2: Tropic Escape, and FarmVille 2, as well as new IP development including FairyTiles, a tile-matching game.
- Contributed Technical Art solutions for **Unity-based mobile games** across real-time VFX, shaders, materials, rendering, and production pipelines.
- Built **artist tools** using Python, C# and JavaScript that reduced repetitive processing time by approximately **50%**, improved asset validation and production workflows.
- Leveraged **AI-assisted workflows** to improve automation, prototyping, problem-solving, and production efficiency.
- Developed and **optimized real-time VFX**, shaders, materials, and post-processing effects for visual quality and performance.
- Optimized mobile assets and rendering pipelines, reducing texture **memory usage** by approximately **40%**.
- Performed **GPU/CPU profiling** and resolved rendering and performance bottlenecks.
- Supported **new IP and LiveOps development**, collaborating within a **70+ member cross-functional team** of artists, designers, engineers, and other disciplines to deliver scalable production solutions.
- Led **technical art initiatives** and provided guidance on pipelines, workflows, optimization, and real-time visual quality.

**3D RIGGING & ANIMATION ARTIST,** *3DPix Studio*
10/2021 – 10/2022
New Delhi, India

- Contributed to the production of the studio's two primary **3D mobile games and animated short films**, supporting the studio across asset creation and production workflows.
- Rigged 45+ **characters and props** for game engines and animation production.
- Optimized **scenes, assets, materials, and animations** for production and real-time requirements.
- Collaborated with the team to **design and develop 3D scenes and mobile game content**.
- Developed around 8+ **Python tools in Maya** to automate repetitive production tasks and improve workflows.
- Created **2D animated films** across the production pipeline, including **storyboarding, digital painting, animation, editing, and compositing**.

**3D & 2D GENERALIST,** *Freelance* 12/2019 – 09/2021
New Delhi, India

- Delivered 15+ **2D and 3D projects** for brands, companies, startups, and independent clients.
- Executed end-to-end **3D production**, including modeling, texturing, rigging, animation, lighting, VFX, and compositing.
- Created **2D visual content** including digital painting, vector artwork, logo design, brochures, and promotional assets.
- Provided **3D pipeline and production consulting**, advising clients on workflows, pipeline structure, and content management.
- Managed projects from **concept through final delivery**, adapting workflows and techniques to meet artistic, technical, and project requirements.

## Education

**AD3D Edge Plus, Advanced Program in 3D Animation and Gaming,** 2018 – 2021
*Maya Academy of Advanced Cinematics (MAAC)* New Delhi, India

**Master of Business Administration,** *Delhi University – School of Open Learning* 2023 – 2025
New Delhi, India

## Core Skills

Technical Art & Game Development | VFX, Shaders & Materials | Tools & Pipeline Development | Scripting & Automation | Real-Time Rendering & Optimization | 3D Art Generalist | Performance Optimization | AI Integration & Automation | Asset Validation & Debugging | GPU/CPU Profiling | LODs & Batching | Cross-Functional Collaboration | Technical Problem Solving & Leadership | Project Ownership | New IP & LiveOps

## Technical Proficiencies

**Game Engine & DCC Tools**
Unity, Autodesk Maya, Adobe Photoshop, After Effects, Spine, Pixologic ZBrush, Substance 3D Painter

**Programming & Scripting**
C#, Python, JavaScript

**Shader, VFX & Graphics**
HLSL, Shader Graph, Particle Systems, Real-Time VFX & Shaders, Materials, Post-Processing, Rendering

**Tools & Pipelines**
Artist & Editor Tools, Asset Validation & Processing, Automation, Batch Processing, Profiling, Optimization

**Version Control**
Perforce, Git

**Production & Collaboration**
Jira, Cross-Functional Collaboration, Technical Problem Solving, Pipeline Development
